# NIAP Newsletter

## NEIGHBORHOOD GROUPS

In an effort to build deeper connections with our students and our students to build deeper connections with one another, we are implementing small groups where students will meet with a faculty member, staff member, or administrator. The purpose of the groups is to foster community and teach leadership skills in a small group setting.

Throughout the year, our groups will be utilizing *Habitudes: The Art of Self-Leadership*. Lessons in the Habitudes series emphasize a leadership trait which is represented by a visual image to help convey the leadership principal. Students have been randomly divided into groups by grade and gender. 6th grade students will meet on Tuesday afternoons. 7th and 8th grade groups will meet on Mondays during advisory.

## UPCOMING EVENTS
